Independent Auditor's Report

Board of Directors
State Public School Building Authority

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the business-type activities and each major fund of the State Public School Building Authority (Authority), a component unit of the Commonwealth of Pennsylvania, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the business-type activities and each major fund of the Authority, as of June 30, 2023, and the changes in financial position and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Authority and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Authority's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Board of Directors State Public School Building Authority Independent Auditor's Report Page 2

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing
 an opinion on the effectiveness of the Authority's internal control. Accordingly, no such
 opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Authority's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Report on Summarized Comparative Information

We have previously audited the Authority's June 30, 2022 financial statements, and we expressed unmodified audit opinions on those audited financial statements in our report dated August 29, 2022. In our opinion, the summarized comparative information presented herein as of and for

Board of Directors State Public School Building Authority Independent Auditor's Report Page 3

the year ended June 30, 2022 is consistent, in all material respects, with the audited financial statements from which it has been derived.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2023

This discussion and analysis of the financial performance of the State Public School Building Authority (Authority) is supplementary information required by the Governmental Accounting Standards Board. It introduces the basic financial statements and provides an analytical overview of the Authority's financial activities. Read it in conjunction with the financial statements that follow this discussion.

The Authority is a public corporation and a governmental instrumentality of the Commonwealth of Pennsylvania, created by the Act of July 5, 1947 (P.L. 1217, No. 498), known as the State Public School Building Authority Act (24 P.S. § 791.1 et seg.), for the purpose of financing the construction and improvement of public school facilities. The Authority is governed by a nine-member body composed of the Governor, State Treasurer, Auditor General, Secretary of Education, Secretary of General Services, President Pro Tempore of the Senate, Speaker of the House of Representatives, Minority Leader of the Senate, and Minority Leader of the House of Representatives. The Authority finances projects through the issuance of bonds, the principal and the interest of which are paid by the annual lease/loan payments collected from public schools. The Authority has no general liability with respect to these obligations and has no beneficial interest in the related assets held by trustees. Acting solely in an agency capacity, the Authority serves as a financing conduit, bringing the ultimate borrower and the ultimate lender together. The goal of the Authority is to make lower-cost tax-exempt financings available to school districts, career and technical centers, intermediate units, and community colleges.

The Authority does not receive an appropriation from the Commonwealth of Pennsylvania. The Authority's two primary revenue sources are management fees charged to the Pennsylvania Higher Educational Facilities Authority (PHEFA) and investment income. PHEFA is operated by Authority staff and issues bonds for higher educational institutions. Administrative fees collected by PHEFA are remitted to the Authority's Administrative Fund in exchange for all management and administrative services and operating expenses. Since management fees alone do not cover the Authority's cost of operation, the Authority requires a sufficient net position balance to maintain the desired level of investment income.

The Authority's longer-term investments are Federal Deposit Insurance Corporation (FDIC) insured certificates of deposit with maturities limited to five years. The Authority uses the State Treasurer's Investment Pool for liquid investments.

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2023

Overview of the Financial Statements

The three basic statements presented within the financial statements are as follows:

- <u>Statement of Net Position</u> This statement presents information reflecting the Authority's assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position. Net position represents the amount of total assets and deferred outflows of resources less total liabilities and deferred inflows of resources. The statement of net position is categorized as to current and noncurrent assets and liabilities. For purposes of the financial statements, current assets and liabilities are those assets and liabilities with immediate liquidity or which are collectible or becoming due within one year of the statement date.
- <u>Statement of Revenues, Expenses, and Changes in Fund Net Position</u> This statement reflects the operating revenues and expenses, as well as nonoperating revenues and expenses during the year. Major sources of operating revenues include management fees charged to PHEFA and interest earned on loans. Major operating expenses are personnel, legal fees for bond issues, and office rent. The change in net position for an enterprise fund is similar to net profit or loss for any other business enterprise. Nonoperating activity consists primarily of the return on the Authority's investments.
- <u>Statement of Cash Flows</u> The statement of cash flows is presented on the direct method of reporting, which reflects cash flows from operating, financing, and investing activities. Cash collections and payments are reflected in this statement to arrive at the net increase or decrease in cash for the year.

Program Description and Highlights

The Authority issues bonds on behalf of schools and makes low-interest loans from a loan fund. The Authority charges a fee for bond issues to cover Authority counsel fees. The fee is paid from bond proceeds. As an added service, the Authority prepares federal arbitrage rebate calculations for tax-exempt bond financings.

(A Component Unit of the Commonwealth of Pennsylvania)

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2023

Program highlights for the fiscal year ended June 30, 2023 include the following:

- Issued a financing on behalf of Delaware County Community College totaling \$66,500,000. The bond proceeds were used to acquire, renovate, and expand the new Southeast Campus.
- Completed two loans for \$2,495,025. The Authority makes low-interest loans to schools for construction, renovation, and equipment purchases. Loans are generally made for a term not to exceed ten years. Loan disbursements totaled \$4,241,643 for all active loans during the year ended June 30, 2023.

Financial Highlights

Net Position

Net position increased by \$742,335 or 2.6% due to lower operating expenses. The reduction in operating costs exceeded the decline in fee revenue.

Operating Revenues

Operating revenues are primarily from management fees charged to PHEFA and investment income from the Loan Fund. Fees collected from PHEFA decreased by \$214,597 or 27.4% as bonds matured or were refunded by local authorities. Fees also declined because the Authority lowered fees for new bond issues and some existing bond issues. Loan Fund earnings increased by \$118,366 or 51.8% due to significantly higher interest rates.

Operating Expenses

Operating expenses declined by \$467,711 or 52.4% from reduced staff complement, lower operating costs, and a decrease in the liability for pension and other postemployment benefits.

Nonoperating Revenues

Nonoperating revenues increased by \$27,357 or 12.7% due to higher interest rates.

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2023

Capital Asset and Debt Administration

Capital Assets

As of June 30, 2023, the Authority had invested approximately \$34,000 in capital assets. Net of accumulated depreciation, the Authority's net capital assets as of June 30, 2023 totaled \$0. During the fiscal year ended June 30, 2023, the Authority did not purchase or dispose of any capital assets. As of June 30, 2022, the Authority had invested approximately \$34,000 in capital assets. Net of accumulated depreciation, the Authority's net capital assets as of June 30, 2022 totaled \$0. During the fiscal year ended June 30, 2022, the Authority did not purchase any capital assets and disposed of assets of approximately \$225,000.

Debt Administration

As of June 30, 2023, the Authority had approximately \$2.25 billion of conduit debt outstanding (nonrecourse debt to the Authority that is repaid solely from revenues derived from the related facilities acquired). This is a decrease of approximately \$24 million from June 30, 2022. The outstanding conduit debt is not recorded on the statement of net position. A schedule of conduit debt outstanding is included in Note 11 of the notes to the financial statements. The Authority has no outstanding debt financing for its operation.

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2023

1. Summary of Significant Accounting Policies

The State Public School Building Authority (Authority) is a public corporation and a governmental instrumentality of the Commonwealth of Pennsylvania (Commonwealth), created by the Act of July 5, 1947 (P.L. 1217, No. 498), known as the State Public School Building Authority Act (24 P.S. § 791.1 et seq.), for the purpose of financing the construction and improvement of public school facilities. The Authority is governed by a nine-member Board of Directors (Board). The Authority finances projects through the issuance of bonds, the principal and interest of which are paid by the annual lease/loan payments collected from public schools. The Authority provides for the financing needs of school districts, career and technical centers, intermediate units, and community colleges (schools).

(a) Reporting Entity

The Authority is a component unit of the Commonwealth. Criteria considered in making this determination include the Commonwealth's appointment of the Authority's Board pursuant to statute and the Commonwealth's ability to impose its will on the Authority.

(b) Measurement Focus and Basis of Accounting

The accounts of the Authority are organized on the basis of funds. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, net position, revenues, and expenses. The Authority's funds are enterprise funds and, accordingly, utilize the accrual basis of accounting and follow the economic resources measurement focus. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded at the time liabilities are incurred. The Authority reports the following major enterprise funds:

Administrative Fund

The Administrative Fund is used to account for the unrestricted revenue, primarily management fees and expenses of the Authority's operations, as well as for payment of bond issue trustee fees the Authority has agreed to pay on behalf of certain schools.

Loan Fund

The Loan Fund is used to account for loans to schools.

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2023

(c) Cash and Cash Equivalents

The Authority considers money market pools and investments with a maturity date of 90 days or less from the purchase date to be cash and cash equivalents.

(d) Due from Other Funds/Due to Other Funds

During the course of its operations, the Authority has numerous transactions between funds to finance operations and provide services. To the extent that certain transactions between funds had not been paid or received as of June 30, 2023, balances of interfund amounts receivable or payable have been recorded.

(e) Investments

Federal Deposit Insurance Corporation (FDIC) insured certificates of deposit are recorded at cost.

The Authority categorizes its fair value measurements within the fair value hierarchy established by accounting principles generally accepted in the United States of America. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs. Level 3 inputs are significant unobservable inputs.

(f) Capital Assets and Depreciation

Capital assets are reported at cost. Depreciation is calculated using the straight-line basis and assets have estimated useful lives ranging from three to seven years.

In conjunction with certain conduit debt issuances, the Authority takes title to property on behalf of the borrower and leases such property back to the borrower. The agreements entered into as part of these transactions are not deemed to have any economic value to the Authority and, therefore, the Authority does not report the related property in the financial statements.

(g) Deferred Inflows and Outflows of Resources

In conjunction with pension and other post-employment benefits (OPEB) accounting requirements, differences in the Authority's expected and actual experience, difference between projected and actual earnings on pension and OPEB plan investments, changes of

(A COMPONENT UNIT OF THE COMMONWEALTH OF PENNSYLVANIA)

assumptions, changes in proportion, and Authority contributions subsequent to the measurement date are recorded as deferred inflows or outflows of resources related to pension and OPEB on the statement of net position. These amounts are determined based on the actuarial valuations performed for the pension and OPEB plans.

(h) Trustee Fees

The Authority reimburses schools for payment of trustee fees up to \$1,000 annually for bonds issued under the October 17, 2001 School Subsidy Program Resolution. A liability is recorded for the estimated future payment of trustee fees.

(i) Compensated Absences

Employees earn annual leave based on 4.24% to 11.55% of regular hours paid. A maximum of 45 days may be carried forward at the end of each calendar year. Employees are paid for accumulated annual leave upon termination or retirement. Employees earn sick leave based on 4.24% or 5% of regular hours paid. A maximum of 300 sick days may be carried forward at the end of each calendar year. Retiring employees that meet service, age, or disability requirements are paid from 30% to 50% of their days available at retirement. Employees are paid 100% of sick days earned in their last year of employment if they are above the 300-day maximum limit.

Accumulated annual and sick leave liability is calculated based on the salary rates in effect as of the statement of net position date. No liability is recorded for nonvesting accumulating rights to receive sick leave benefits. However, a liability is recognized for that portion of accumulating sick leave benefits that is estimated will be taken upon retirement of the employees.

(j) Net Position

Net position is categorized as follows:

<u>Net Investment in Capital Assets</u> – This category groups all capital assets into one component of net position. Accumulated depreciation and the outstanding balances of debt that are attributable to the acquisition, construction, or improvement of these assets reduce this category.

<u>Unrestricted Net Position</u> – This category represents the net position of the Authority not otherwise defined.

(A COMPONENT UNIT OF THE COMMONWEALTH OF PENNSYLVANIA)

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2023

(k) Operating Revenues

Operating revenue for the Administrative Fund consists primarily of management fees charged to the Pennsylvania Higher Educational Facilities Authority (PHEFA), relating to various bond, note, and lease issues outstanding. The Authority also charges a fee for SPSBA bond issues designed to offset Authority counsel expense. Management fees are recognized as revenue as of the periodic billing date. Operating revenue for the Loan Fund includes interest earned from loans and investment income.

(I) Interfund Transfers

Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported after nonoperating revenues/expenses.

(m) Conduit Debt Obligations

The Authority issues taxable and tax-exempt instruments (bonds, notes, or other obligations), which do not constitute a debt of the Authority or the Commonwealth. These debt instruments are limited obligations of the Authority, payable solely from payments made by the related borrowing institutions and related assets held by trustees. The Authority has no general liability with respect to these obligations and has no beneficial interest in the related assets held by trustees. Acting solely in an agency capacity, the Authority serves as a financing conduit, bringing the ultimate borrower and the ultimate lender together. The Authority has elected to exclude these obligations and the related assets held by trustees from the financial statements. The Authority has disclosed the outstanding balance in Note 11.

(n) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures. Actual results could differ from those estimates.

(o) Adopted Pronouncements

The following GASB Statements were adopted for the year ended June 30, 2023: Statement Nos. 91 (Conduit Debt Obligations) and 96 (Subscription-Based Information Technology

Arrangements). These statements had no significant impact on the financial statements for the year ended June 30, 2023.

(p) Pending Changes in Accounting Principles

The GASB has issued statements that will become effective in future years including 100 (Accounting Changes and Error Corrections) and 101 (Compensated Absences). Management has not yet determined the impact of these statements on the financial statements.

2. Cash and Cash Equivalents and Investments

Pennsylvania statutes provide for investment of governmental funds into certain authorized investment types, including U.S. Treasury bills, other short-term U.S. government obligations, short-term commercial paper issued by a public corporation, banker's acceptances, and insured or collateralized time deposits and certificates of deposit. The statutes allow pooling of governmental funds for investment purposes.

The deposit and investment policy of the Authority adhere to state statutes and prudent business practice. The governments' funds are either maintained in collateralized interest-bearing checking accounts, external investment pools, insured certificates of deposit, or U.S. Treasury Notes, which are considered permissible investments of the Authority. There were no deposit or investment transactions during the year that were in violation of either state statutes or the policy of the Authority.

Under the Authority's investment policy, any investment not expressly listed in the policy as permitted is prohibited. Prohibited investments include, but are not limited to, any type of swap, derivative instrument, or stock option of a corporation created by an act of Congress. The Authority uses an external investment pool to ensure safety and maximize efficiency, liquidity, and yield for Authority funds. These funds are invested in the Pennsylvania Treasurer's INVEST Program (State Treasurer's Investment Pool), which separately issues audited financial statements that are available to the public. The fair value of the Authority's position in the external investment pool is equivalent to the value of the pool shares. The Commonwealth provides external regulatory oversight for the external investment pool. The Authority is invested in INVEST - Daily Pool, which requires no minimum balance, no minimum initial investments, and has no required investment period.

Total investments	\$	9,750,000	\$	8,000,000	\$	17,750,000

The Authority's investment policy limits investment maturities as a means of managing its exposure to declines in fair values.

(a) Interest Rate Risk

The Authority's investment policy limits interest rate risk by investing in a laddered portfolio comprised of certificates of deposit. The maximum maturity is limited to five years. The certificates of deposit are noncallable.

(b) Credit Risk

This is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Authority's investment policy minimizes credit risk by limiting investments to only those permissible, as defined previously. The Authority's fixed investments are FDIC insured certificates of deposit. The State Treasurer's Investment Pool carries Standard & Poor's highest money market funds rating of AAAm.

(A COMPONENT UNIT OF THE COMMONWEALTH OF PENNSYLVANIA)

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2023

(c) Custodial Credit Risk – Deposits

In the case of deposits, this is the risk that in the event of a bank failure, the Authority's deposits may not be recovered. The Authority's investment policy limits custodial credit risk by depositing in certificates of deposit that are FDIC insured or collateralized. Collateral for the Authority's certificates of deposit shall be held at the Federal Reserve in either the name of the Authority or the Commonwealth. Short-term deposits, not qualified for FDIC insurance, shall be collateralized with securities held by third-party in accordance with Act 72 of 1971.

The Authority's FDIC insured certificates of deposit are in the custody of a local bank and insured through the Certificate of Deposit Account Registry Service (CDARS). CDARS distributes deposits over banks in its network in increments of less than the standard FDIC insurance maximum to ensure that both principal and interest are eligible for full FDIC protection while working with a single participating bank in the network. Authority deposits not qualified for FDIC insurance are collateralized with securities held by a third-party trust in accordance with state law concerning public deposits, which allows pooling of public accounts into a single collateral pool. The Authority's checking account balance of \$90,813 as of June 30, 2023 is covered under FDIC insurance.

Custodial Credit Risk – Investments

For an investment, this is the risk that, in the event of the failure of the counterparty, the Authority will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Authority's investment policy limits credit risk by investing in financial institutions that have a minimum capital (equity) balance of \$25,000,000 and at least five years of operation. Investments in the State Treasurer's Investment Pool are uninsured, uncollateralized, and not held in the Authority's name.

(d) Fair Value of Investments

As of June 30, 2023, the Authority's FDIC insured certificates of deposits in the amount of \$17,750,000 are classified as Level 1 investments.

3. Loans Receivable

Loans receivable relate to the Loan Fund, which makes loans to schools for construction, renovation, and equipment purchases. These fixed rate loans are for up to \$3,000,000 with a maximum term of ten years. The Authority sets the interest rates for new loans on a quarterly basis.

At June 30, 2023, the Authority had loans receivable of \$7,232,194 with interest rates ranging from 1.5% to 3.0%.

Maturities of loans receivable for each of the following fiscal years are as follows:

Principal	Interest	Total		
\$ 2,190,471	\$ 133,816	\$	2,324,287

7. Related-Party Transactions – Administrative Fund

The Administrative Fund provides for the operation of both the Authority and PHEFA.

Administrative fees collected by PHEFA are deposited directly into the Authority's Administrative Fund in exchange for all management and administrative services and operating expenses. During the year ended June 30, 2023, the amount received from PHEFA was \$569,794. The management and board members are identical for both the Authority and PHEFA.

8. Pension Plan

Plan Description

All full-time employees of the Authority contribute to the Commonwealth of Pennsylvania State Employees Retirement System (SERS), a cost-sharing multiple-employer defined benefit pension plan (Plan). Article II of the Commonwealth's constitution assigns the authority to establish and amend the benefit provision of the Plan to the General Assembly. SERS issues a publicly available financial report that can be obtained at www.SERS.pa.gov.

Summary of Significant Accounting Policies

For purposes of measuring the net pension liability, deferred outflows and inflows of resources related to pension, and pension expense, information about the fiduciary net position of SERS,

(A COMPONENT UNIT OF THE COMMONWEALTH OF PENNSYLVANIA)

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2023

as well as additions to and deductions from SERS fiduciary net position have been determined on the same basis as they are reported in the financial statements of SERS. Employer contributions are recognized when due and the employer has a legal requirement to provide the contributions. Investments are reported at fair value.

Benefits Provided

Membership in SERS is mandatory for all full-time Authority employees. SERS provides retirement, death, and disability benefits according to statute. Retirement benefits vest after five years of credited service for employees hired prior to January 1, 2011, and ten years for employees hired after January 1, 2011.

Most employees who entered SERS membership prior to January 1, 2011, and who retire at age 60 with three years of service, or at any age with 35 years of service, are entitled to a full retirement benefit. The general annual benefit provided by statute is 2.5% of the member's highest three-year average salary times years of service. Most employees who entered SERS membership after January 1, 2011, and before January 1, 2019, have a full retirement age of 65 and a general annual benefit of 2% of the member's final average salary. The benefit structure for most new employees changed effective January 1, 2019, to include two hybrid plan options as well as a defined contribution-only plan option. The hybrid plan options contain a Defined Benefit Plan component with a full retirement age of 67 that accrues at 1.25% or 1% of the member's final average salary.

Contributions

Contributions vary by membership class. Class AA members are required by statute to contribute to SERS at a rate of 6.25% of salary. Class A-3 and A-4 members contribute at 6.25% and 9.3% of salary, respectively. Class A-5 and A-6 members contribute at 5% and 4% of salary, respectively. The employees' contributions are recorded in an individually identified account, which is also credited with interest, calculated quarterly to yield 4% per annum, as mandated by statute. Accumulated employee contributions and credited interest vest immediately and are returned to the employee upon termination of service if the employee is not eligible for other benefits. Authority employee contributions to SERS for the year ended June 30, 2023 approximated \$31,000.

The Authority's contractually required contribution rate of annual payroll for the year ended June 30, 2023 was 38.82% for AA employees and 26.05% for A3 employees. The SERS funding policy provides for periodic employer contributions at actuarially determined rates based on SERS funding valuation, expressed as a percentage of annual retirement covered payroll, such

(A COMPONENT UNIT OF THE COMMONWEALTH OF PENNSYLVANIA)

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2023

that employer contributions, along with employee contributions and an actuarially determined rate of investment return, are adequate to accumulate assets to pay benefits when due. The Authority's contributions to SERS for the years ended June 30, 2023 and 2022 were \$172,872 and \$251,714, respectively.

Pension Liabilities, Pension Expense, and Deferred Outflows and Inflows of Resources Related to Pension

At June 30, 2023, the Authority reported a liability of \$1,711,988 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Authority's portion of the net pension liability was allocated by SERS to each employer based on a projected-contribution method. At December 31, 2022, the Authority's proportion of the net pension liability was approximately 0.0075 percent, which is an increase of 0.0042 percent from its proportion measured as of December 31, 2021.

At June 30, 2023, the Authority reported deferred outflows and inflows of resources related to pension from the following sources:

Deferred Outflows of Resources for Pension	
Differences between expected and actual experience	\$ 24,879
Net difference between projected and actual earnings	
on pension plan investments	232,542
Changes of assumptions	115,464
Changes in proportion and differences between Authority	
contributions and proportionate share of contributions	182,819
Contributions subsequent to the measurement date	85,666
Total deferred outflows of resources for pension	\$ 641,370
Deferred Inflows of Resources for Pension	
Differences between expected and actual experience	\$ 4,752
Changes in proportion and differences between Authority	
contributions and proportionate share of contributions	 672,382
Total deferred inflows of resources for pension	\$ 677,134

For the year ended June 30, 2023, the Authority recognized pension expense of \$53,724.

(A COMPONENT UNIT OF THE COMMONWEALTH OF PENNSYLVANIA)

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2023

Deferred outflows of resources related to Authority pension contributions subsequent to the measurement date totaling \$85,666 will be recognized as a reduction of the net pension liability in the year ending June 30, 2024. Other amounts reported as deferred outflows and inflows of resources for pension will be recognized in pension expense as follows:

Actuarial Methods and Assumptions

The following methods and assumptions were used in the December 31, 2022 actuarial valuation. These methods and assumptions were applied to all periods included in the measurement period:

Actuarial cost method Entry age

Amortization method Straight-line amortization of difference

between projected and actual earnings on pension plan investments over five years and amortization of assumption changes and noninvestment gains/losses over the average expected remaining service lives of all

employees that are provided benefits

Investment rate of return 6.875% net of manager fees including inflation

Projected salary increases Average of 4.55% with range of 3.30% - 6.95%

including inflation

Asset valuation method Fair (market) value

Inflation 2.50%

Mortality rate Projected PubG-2010 and PubNS-2010

Mortality Tables adjusted for actual plan

experiences and future improvement

Cost-of-living adjustments (COLAs) None (ad hoc)

Every five years, SERS is required to conduct an actuarial experience study to determine whether the assumptions used in its annual actuarial valuations remain accurate based on current and anticipated demographic trends and economic conditions. The 19th Investigation of Actuarial Experience covering the period 2015-2019 was released and approved by the SERS Board in July 2020. The study recommended decreasing the investment rate of return and inflation assumptions, reducing rates of career salary growth, more favorable annuitant mortality assumptions, and several other changes. The study can be viewed at www.SERS.pa.gov.

The actuary and SERS Board review the investment rate of return annually, in addition to the normal five-year experience study cycle, in recognition of changing market environments to

ensure this assumption remains reasonable with each actuarial valuation. In June 2022, the SERS Board approved a reduction in the Defined Benefit Plan investment rate of return to 6.875% for 2022 from 7.0% for 2021.

The long-term expected real rate of return on pension plan investments is determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in SERS current and target asset allocation, as of December 31, 2022, are summarized in the following table:

	_	_	
I Ong_	Δrm	-vn	actad

Discount Rate

The discount rate used to measure the total pension liability was reduced to 6.875% for 2022 from 7.0% for 2021. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the rates applicable for each member and that employer contributions will be made based on rates determined by the actuary and as set by statute. Based on those assumptions, SERS fiduciary net position was projected to be available to make all projected future benefit payments of current active and non-active SERS members. Therefore, the long-term expected rate of return on SERS investments was applied to all periods of projected benefit payments to determine the total pension liability.

9. OPEB

Plan Description

The Authority contributes to the Commonwealth's Retired Employees Health Program (REHP), a single-employer defined benefit post-employment healthcare plan administered by the Pennsylvania Employee Benefits Trust Program (PEBTF) acting as a third-party administrator on behalf of the Commonwealth Office of Administration. Nearly all Commonwealth agencies and several of the Commonwealth's discretely presented component units participate in REHP. REHP provisions are established and may be amended by the Commonwealth's Executive Board, Secretary of Administration and through the collective bargaining process. The REHP does not issue a stand-alone financial statement; however, detail of the REHP is included in the Commonwealth's Annual Comprehensive Financial Report for the fiscal year ended June 30, 2022.

(A COMPONENT UNIT OF THE COMMONWEALTH OF PENNSYLVANIA)

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2023

Summary of Significant Accounting Policies

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Commonwealth's REHP and additions to/deductions from REHP's fiduciary net position have been determined on the same basis as they are reported by REHP. Employer benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Benefits Provided

The REHP provides medical benefits to retired employees and their eligible dependents. These benefits are provided as a result of negotiated union contracts and through administrative policy.

Eligible employees who retire from the state and meet one of the following eligibility criteria are eligible to receive REHP benefits:

- 25 or more years of service
- 20 or more years of service and superannuation age 60 for general employees (age 55 or 65 for employees subject to Act 120 of 2010)
- Disability retirement requires five years of service

Spouses and dependents are eligible for subsidized post-employment medical coverage while the retiree is alive. The Patient Protection and Affordable Care Act (PPACA), signed into law on March 23, 2010, increased the dependent child age limit to age 26 and applied to the Commonwealth effective January 1, 2011.

Contributions

The Commonwealth created the OPEB investment pool, a trust equivalent arrangement, during the fiscal year ended June 30, 2008. The Commonwealth plans to contribute \$50 million annually until assets cover the present value of future benefits, subject to annual evaluation.

REHP employer contribution requirements are established by the Commonwealth's Office of Administration and the Office of Budget. All employing agencies and certain plan members contributed \$120 per biweekly pay period for each current REHP eligible active employee during fiscal year ended June 30, 2023 to the REHP Trust. During the year ended June 30, 2022,

YEAR ENDED JUNE 30, 2023

the Authority's required contribution to REHP was \$120 biweekly per employee. The Authority's contributions to REHP for the year ended June 30, 2023 and 2022 were \$12,530 and \$18,480, respectively.

For employees who retired after June 30, 2005 and before July 1, 2007, the retiree contribution is set at 1% of employee's final annual salary. For employees who retired on or after July 1, 2007 but before July 1, 2011, retiree contributions are 3% for non-Medicare and 1.5% for Medicare of either final gross annual base salary or final average salary, whichever is less. For employees who retire on or after July 1, 2011, retiree contributions are 3% of their final average salary for non-Medicare and 1.5% of final average salary for Medicare.

Surviving spouses of deceased retirees may continue to participate in the plan if they pay the full cost of the coverage.

Health Care Reform

PPACA was signed into law in 2010 with the purpose of increasing the number of Americans with health insurance coverage. There are several provisions within PPACA with potentially significant short- and long-term cost implications for employers. In future years, there may continue to be increased cost impact to the extent the health and welfare program experiences increased utilization due to these changes, all of which are assumed to be in place indefinitely.

OPEB Liabilities, OPEB Expense, and Deferred Outflows and Inflows of Resources Related to OPEB

At June 30, 2023, the Authority reported a liability of \$787,000 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2022, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The Authority's portion of the net OPEB liability was allocated to each employer based on a projected-contribution method. At June 30, 2022, the Authority's proportion of the net OPEB liability was approximately 0.007980 percent, which is a decrease of 0.000744 percent from its proportion measured as of June 30, 2021.

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2023

At June 30, 2023, the Authority reported deferred outflows and inflows of resources related to OPEB from the following sources:

Deferred Outflows of Resources for OPEB	
Changes of assumptions	\$ 71,000
Differences between expected and actual experience	30,000
Differences between projected and actual earnings on	
plan investments	3,000
Contributions subsequent to the measurement date	12,530
Total deferred outflows of resources for OPEB	\$ 116,530
Deferred Inflows of Resources for OPEB	
Changes of assumptions	\$ 145,000
Differences between expected and actual experience	235,000
Changes in proportion and differences between Authority

Actuarial Methods and Assumptions

The following methods and assumptions were used in the June 30, 2022 actuarial valuation. These methods and assumptions were applied to all periods included in the measurement period:

Actuarial cost method Entry age normal level percent of pay

Level percent of payroll, 30-year open

Amortization method amortization (fresh start each year)

Investment rate of return 6.75%

Projected salary increases Average of 4.60% with range of 3.30% - 6.95%,

including inflation

Asset valuation method Fair (market) value

Inflation 2.50%

Mortality rate Pub-2010 General Healthy Retiree Headcount

Weighted Mortality Tables, with rates set forward one year for females, and adjusted for mortality improvements using projection scale

MP-2021

Healthcare trend increases:

Initial rate for medical benefits

6.3% for medicare and 7.3% for non-medicare
Ultimate rate for medical benefits

3.9% for both medicare and non-medicare

Year ultimate trend rate reached 2075

The Commonwealth's SERS performs experience studies periodically to determine reasonable and appropriate economic and demographic assumptions for valuing the defined benefit pension plan. The inflation assumption selected by the SERS Board during an April 2017 meeting are also used for the retiree health benefit valuation.

One significant assumption where the recommendation of the experience study is not applicable to this retiree health benefit valuation is the discount rate. Since REHP has insufficient assets to meet future year's projected benefit payments, as prescribed by GASB Statements Nos. 74 and 75, the discount rate was based on the 20-year Bond Buyer GO Index municipal bond rate as of the measurement date. The discount rate was 4.67% as of June 30, 2022 and 3.63% as of June 30, 2021.

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2023

Medicare Part D subsidy payments are not reflected under GASB Statement No. 45 (predecessor statement to GASB No. 75) which is consistent with GASB technical bulletin 2006-1.

The long-term expected rate of return on OPEB plan investments is determined using a risk premium review. This review compares the current relationship between fixed income and equity and their relationship over long periods of time to come up with an expected rate of return. Other variables considered in the expected rates of return are a reversion to the mean for each asset class. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

		Long-Term Expected
Asset Class	Target Allocation	Rate of Return
U.S. equity	40.00%	5.1%
International equity	27.00%	5.5%
Fixed income	23.00%	1.6%
Real estate	8.00%	4.7%
Cash and cash equivalents	1.50%	0.0%
Private equity	0.50%	8.3%
Total	100.00%	

Discount Rate

The discount rate used to measure the total OPEB liability was 4.67% as of June 30, 2022 and 3.63% as of June 30, 2021. The single discount rate of 4.67% as of June 20, 2022 was based on the long-term expected rate of return on assets held in the OPEB investment pool (6.75%) and a municipal bond rate of 3.54% (based on the 20-year Bond Buyer GO Index as of the end of June 2022). The discount rate of 3.63% as of June 30, 2021 was based on the 20-year municipal bond rate and did not include the long-term expected rate of return on assets held in the OPEB investment pool. Since REHP had insufficient assets to meet future year's projected benefit payments, the single discount rate was applied to all periods of the projected benefit payments to determine the total OPEB liability. The projection of cash flows used to determine the single discount rate for each measurement period assumed that employer contributions will be made based on the current funding policy for future years.

YEAR ENDED JUNE 30, 2023

1. Changes of Assumptions

The actuarial valuation uses assumptions regarding future rates of investment return (discount rate) and rates of retirement, withdrawal, death, and disability among State Employees' Retirement Board (SERS) members and their beneficiaries. The current set of assumptions used in the December 31, 2022 actuarial valuation was adopted by the SERS Board based upon actual experience of SERS during the years 2015 through 2019. As a result of the review undertaken during June of 2022, the SERS Board approved a reduction in the annual discount rate assumption from 7.0% to 6.875%. This change became effective with the December 31, 2022 actuarial valuation. SERS will continue to closely monitor these assumptions and will recommend changing them if conditions warrant such change.

2. Factors and Trends Used in the Actuarial Valuation for Pension Benefits

The actuarially determined contributions are calculated as the Authority's percentage of the total of (1) the employer normal cost percentage and (2) the net amortization of the unfunded liability, but not less than any applicable minimum contribution as prescribed by the Pennsylvania State Employees' Retirement Code. The following actuarial methods and assumptions were used to determine contribution rates reported in the pension required supplementary schedules:

Valuation date December 31, 2022

Actuarial cost method Entry age

Amortization method Straight-line amortization of difference between projected

and actual earnings on pension plan investments over five

years and amortization of assumption changes and noninvestment gains/losses over the average expected remaining service lives of all employees that are provided

benefits

Investment rate of return 6.875% net of expense, including inflation

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION – OPEB INFORMATION

YEAR ENDED JUNE 30, 2023

1. Changes of Assumptions

Since REHP has insufficient assets to meet future year's projected benefit payments, as prescribed by GASB Nos. 74 and 75, a single discount rate of 4.67% was based on the long-term expected rate of return on assets held in the OPEB investment pool (6.75%) and a municipal bond rate of 3.54% (based on the 20-year Bond Buyer GO Index as of the end of June 2022). The discount rate was 4.67% as of June 30, 2022 and 3.63% as of June 30, 2021. The mortality improvement assumption was also updated from Scale MP-2020 to Scale MP-2021. The discount rate of 3.63% as of June 30, 2021 was based on the 20-year municipal bond rate and did not include the long-term expected rate of return on assets held in the OPEB investment pool.
